THE DEADLY FLY.

This is the month when the house fly gets in his deadly work, therefore keep the flies away from the sick, especially those suffering from contagious disease. Do not allow filth or decaying material of any kind to accumulate on or near your premises. If there is no dirt or no filth, there will be no flies. Screen all food.

RAPID HEADWAY IN BIG MOUNTAIN FIRE

SAN DIEGO, Cal., Aug. 15.—A forest fire which gained rapid headway broke out yesterday morning in Lost Valley in the San Jacinto mountains, about 80 miles northeast of this city. Men have gone from Warners in this county to fight the flames and last night Forest Superintendent H. A. Marshall left this city for the scene. Particulars are not obtainable here today.

RETURNS ON ORE SHIPMENTS FROM MEXICAN

The Mexican Mining company had received up to Saturday last the sum of \$14,575 for ore shipped to the smelter in the month of August, with three additional cars yet to hear from, which will undoubtedly swell the net receipts from ore sold to a sum considerably above the current expenses for the month. No shipments of first class ore have been made since the first week of the month, so that the net earnings from this source for August will be considerably under that of July. The preliminary work to sinking on the 2500-foot level has made extensive ore extraction except in the ordinary course of this work, largely impossible, but there is now an accumulation of shipping grade at the Union shaft chute awaiting shipment. It is also expected that the new winze will be carried down in first grade ore, thus adding to the reserve of that class of material.

There was an unusually sizable delegation of visitors to the north end on Saturday, including a large number from Reno, points in the east and from California. The trip underground was made through the C. & C. shaft, and it was one of the largest crowds seen on visiting day at the mines for a long time. Many tourists at the Lake and Reno are including Virginia City in their itinerary, and many have secured special permits of late to visit the mines during the week on other than the day set apart for sight-

seers. The chief points of interest were the big pumps at the Cen. Virginia, the Ophir stopes, and the 2500-foot level of the Mexican, where the station for the new winze, to be started this week, is nearly 30 feet wide in places. The excellent conditions found everywhere were the cause of many favorable comments and the prediction freely made of large future ore extraction at the north end.

MRS. GALLWEY'S BODY RECOVERED FRIDAY LAST

Saturday's Butte Miner says of the death of Mrs. Gallwey, formerly of Virginia City:

"The body of Mrs. H. A. Gallwey, wife of Senator Gallwey, general manager of the Butte, Anaconda & Pacific railway, was recovered Friday in 40 feet of water near the spot where she was drowned on Monday. Senator Gallwey will take the body to San Francisco, where the funeral will be held from the home of Mrs. Gallwey's mother Wednesday. The coroner's jury brought in a verdict of accidental death. The evidence at the coroner's inquest showed that deceased was rapidly recovering from her illness, having been a patient at Walheim's Sanitarium, and on the day of her death was in a happy frame of mind. Those on shore who saw the drowning say that she had been thrown into the water by the capsizing of the boat by the high sea running. It was shown that the scene of the accident was a dangerous spot, owing to the bad winds, and the jury's verdict was rendered without the leaving their seats."

All kinds of ruling and binding at the Bonanza.

NO CHANCE TO RECOVER MONEY FOR DEPOSITORS

Speaking of his resignation as receiver of the defunct Nye & Ormsby County bank, Thomas G. Lockhart, in an interview published in the Goldfield Tribune says: "I do not see that I can do any more good for the interests of the bank and its depositors. It looks like a hopeless case to try to get anything out of the alleged assets of the institution. Most of the outstanding claims are practically worthless, representing large amounts of money loaned upon no better security than an I. O. U., with nothing back of it. The assets had been picked over a half dozen times before I took hold of it, yet I was hopeful I could save something for the depositors by cutting down expenses. The further I have gone into the affairs of the bank, the more I learn of the recklessness with which money was loaned out."

CEMETERY COMMITTEE TO MEET TONIGHT

The cemetery committee will meet this evening at Elks' hall at 8 o'clock. The subcommittee visited the various proposed sites and will make a report tonight.

The Tonopah Lumber company has the largest stock of all kinds of lumber—mining timbers and building material; wholesale and retail. Mining timbers a specialty.
